

## Game Playing Guide, Version 2.0

### Tiles:

Select a tile from the sidebar by clicking and holding the mouse button. This will allow you to drag the tile to any empty grid that you wish to place the tile in. Once your mouse is above this grid, release the mouse and the tile will snap into position.

### Buttons:

New Game: No effect if clicked in the current version of the program.

Reset: No effect if clicked in the current version of the program.

Quit: Will close the game window when clicked on.
